[1] A Moroccan team composed of four high school students took part in the 2019 FIRST Global Challenge in Dubai. The event took place in the Emirati city between October 24 and October 27. FIRST Global Challenge is a yearly international robotics challenge where high school students from around the world meet and compete using **their** robots.

[2] The Moroccan team was composed of three girls, Intissar, Yasmine, and Nour, and one boy, Ismail, all aged between 16 and 17 years old. The team members study in different high schools in Rabat and Casablanca, but they are all members of ADJI club, a group of young Moroccan inventors.

[3] It is the second time that the Moroccan team has taken part in the event. Last year, the same members represented Morocco at the challenge in Mexico City. This year's challenge, called "Ocean Opportunities," invited the participants to invent robots that can effectively collect and dispose of trash in beaches. More than 1500 participants, from 191 different countries participated in the challenge.

[4] The Moroccan team created a robot that can move on unstable surfaces, such as beach sands. The robot was also able to carry 15 to 20 waste items, such as candy wrapping, soda cans, and plastic boxes. Finally, the Moroccan invention could lift the items up to 70 cm high and dispose of them in a trash bin.

[5] The winning team of this year's competition was "Team Hope." It comprised five Syrian refugee teenagers who want to overcome the challenges **they** have faced and prove themselves. They believe that robotics and artificial intelligence can make the world a better place.

[6] To qualify for the challenge, the teams should take part in a series of local events throughout the year. The organizers of the competition also granted funds for the teams to buy the necessary electronics for their inventions.

[7] FIRST Global Challenge started as a yearly regional event in the United States and Canada in 1989. However, since 2017, **the event** has become global, with teams from more than 190 countries participating. The 2017 challenge took place in Washington DC and the second competition was organized in Mexico City. This year is the first time that the event has taken place outside of the Americas.

## III. WRITING: (10 POINTS)

www.englishwithsimo.com

### DO TASK 1 AND TASK 2

#### TASK 1: (4 POINTS) COMPLETE THE FOLLOWING PARAGRAPH.

After the COVID-19 lockdown, I have plans to do many activities. First, **I will visit my family because I really miss them especially my grandfather. Second, I will go on a picnic with my friends and do many activities together like playing football, jogging, taking pictures, etc. Third, I will travel to Agadir and go to the beach because I miss the cool sound of waves. To sum up, I think going back to the mosque is the best thing that can happen after the lockdown.**

By: Fatiha Oublale  
2BSH1

#### TASK 2: (6 POINTS)

Students around the world are now using different educational platforms and social websites to study online. These platforms include Zoom, Conference Call, Google Meet, OBS, WhatsApp, Facebook... Write an e-mail to your English friend telling him/her about your favorite platform and how it helped you prepare for your BAC exam.

Dear my friend

**I'm writing this e-mail to tell you about my favourite platform that helped me a lot in preparing for my bac exam. this platform is Whatsapp. the latter is the best platform for me because it is very easy to use. In addition, one can make voice or video calls with anyone who has the same platform. Moreover, it doesn't consume a lot of your mobile data. Finally, Whatsapp is very famous and it is verified by play protect. looking forward to hearing from you.**

best wishes,

Your Friend.
